[psavidis.github.io/resume](https://psavidis.github.io/resume)

Software Engineer | Java Specialist | Architecture & Design | Remote Worker

## | Summary

Welcome to the PDF version of my resume. For the live, coded experience, visit the link or scan the QR code 🙌

- Feel free to **Connect** with me via email or LinkedIn to explore potential business opportunities
- **Download** my resume in PDF format
- **Search** through my projects using simple keywords

Outside of work, I'm passionate about traveling, making music, reading philosophy, and swimming.

**Fun Fact:** I've got dual citizenship 🇪🇷 🇦🇺

## | Experience

### Software Engineer @ Camunda

April 2023 – Present

Athens, Greece

Remote

### Senior Software Engineer @ Cortical.io

August 2020 – December 2022

Vienna, Austria

Hybrid

### Software Engineer @ Upstream

March 2016 – June 2020

Athens, Greece

On-site

### Software Engineer @ European Dynamics

December 2012 – December 2015

Athens, Greece

On-site

### Army Duties @ Hellenic Army

October 2011 – July 2012

Athens, Greece

On-site

## Projects

### Camunda Platform 7 - The Open Source BPMN platform

Camunda Platform 7 is an open-source process automation engine trusted by thousands of companies worldwide. Built for Java and accessible from any language via REST, it embeds a high-performance BPMN 2.0 engine into any app or container. It integrates seamlessly with Spring, Java EE 6, Quarkus, and a wide range of databases to orchestrate workflows at scale.

- Individual Contributor to the Camunda 7 Project between April 2023 and April 2025
- My contributions can be found between 7.20.0 and 7.23.0 Releases
- Feature Development for Open Source / Enterprise Edition
- Community Worker - Worked on Reviewing community contributions, security vulnerabilities, CI improvements
- Alpha and Minor Release Management
- Worked on C7 to C8 Data Migrator PoC

My Commits

## Contract Intelligence & Services

Contract Intelligence and its platform services offer an IDP solution for extracting data from documents and classifying them with different algorithms (proprietary, open source).

- Lead Developer for Refactoring the Main Product of the company using a DDD inspired approach
- Redesigned & Implemented Platform Services to be configurable (turned it into microservice).
- Designed, Implemented & Tested Connectors, a flexible, scalable, fault tolerant microservices system to connect the Products to documents of various Cloud storage solutions Sharepoint, Box, Dropbox etc.)
- Played a key role in the recruitment process by conducting interviews and assisting in the selection of qualified developers.
- Mentoring & Coaching

Java Spring Boot Spring Boot Cloud Stream Postgres OCR Cucumber JUnit 5  
Mockito JPA Hibernate Domain Driven Design Microservices Docker

## Secured

Secure-D detects and blocks even the most sophisticated types of mobile ad fraud securing mobile users and safeguarding mobile operators.

- Worked in an agile team using a scrum-like schedule, sprint based developing the platform
- Production Support

Java 8 Tomcat Kafka Hive Spring boot Swagger Node.js Javascript Hibernate  
Postgres Cassandra Redis Apache Avro Docker Kubernetes Jenkins Flyway JUnit  
Mockito Spring Tests JIRA Canban board

## Dryad & Medusa

Dryad is Upstream's pioneering mobile commerce platform.

- Developed & Maintained Upstream's core products in an Agile team
- Implemented feature in an event-driven architecture at scale
- Production Support

Java 8 Tomcat RabbitMQ Event-driven Programming Guava Microservices Kafka  
Spring boot Swagger Hibernate Postgres Elasticsearch Redis Protocol buffers  
Python Docker Jenkins Flyway Spring Tests JUnit Mockito JIRA Canban board

## e-PPS

Web-based collaborative system to facilitate the full lifecycle of a tendering process, for both buyers and suppliers.

- Researched & Implemented customization on top of the existing platform

Java J2EE JBOSS 5 EJB 2.0 Web Logic Hibernate Struts 1

Project

## Benelux Patent Platform

The aim of the platform is to serve as a common system for the National Offices of Intellectual Property of Belgium, Luxembourg and Netherlands.

- Developed the platform's back-office from the group up (Backend + Frontend)
- Created the search criteria functionality
- Led the data migration from Lucene to Elasticsearch

Java J2EE Spring Spring MVC Spring Security JMS JUnit EasyMock PowerMock  
Hibernate SQL Server 2008 Tomcat 7 Maven REST Lucene JSON XML XSLT  
Apache Tiles 2 HTML 5 CSS JSP JavaScript JQuery Eclipse Git Jenkins  
Sonar

Belgium

Netherlands

Luxembourg

## Eleura Platform

Electronic dossier collection of electronic documents and their preparation for upload into the European Parliament's ARCDoc archival system.

- Developed all the search criteria functionality which was the core business of the app
- Contributed to the development of the rest of the app
- Created a new web interface for PAMAP using XSLT and CSS

Java J2EE Spring Spring MVC Spring Security JUnit EasyMock PowerMock  
Hibernate Oracle DB Tomcat 6 Maven JSON XML XSLT Apache Tiles 2  
HTML 5 CSS JSP JavaScript JQuery Eclipse Git Jenkins Sonar

## PAMAP

PAMAP Physical Activity Monitoring for Aging People is a Health Monitoring and Personal Health Record system.

- Developed mobile client that used PAMAP's infrastructure to access PAMAP's services
- Conducted Research around HL7 protocol to standardize PAMAP's communication so it can easily exchange data with other medical systems
- Created a new web interface for PAMAP using XSLT and CSS

Java Ant XML XSL HTML CSS JSP Eclipse Android SVN

Project

## Education

**Bachelor of Science (BSc) in Computer Science**  
**Athens University of Economics and Business**

2006 – 2011
