

Petros Savidis

peter.savidis1@gmail.com

psavidis.github.io/resume

Software Engineer | Java Specialist | Architecture & Design | Remote Worker

Summary

Welcome to the PDF version of my resume. For the live, coded experience, visit the link or scan the QR code 🙌

- Feel free to **Connect** with me via email or LinkedIn to explore potential business opportunities
- **Download** my resume in PDF format
- **Search** through my projects using simple keywords

Outside of work, I'm passionate about traveling, making music, reading philosophy, and swimming.

Fun Fact: I've got dual citizenship 🇪🇷 🇦🇺

Experience

Software Engineer @ Camunda

April 2023 – Present

Athens, Greece

Remote

Senior Software Engineer @ Cortical.io

August 2020 – December 2022

Vienna, Austria

Hybrid

Software Engineer @ Upstream

March 2016 – June 2020

Athens, Greece

On-site

Software Engineer @ European Dynamics

December 2012 – December 2015

Athens, Greece

On-site

Army Duties @ Hellenic Army

October 2011 – July 2012

Athens, Greece

On-site

Projects

Camunda Platform 7 - The Open Source BPMN platform

Camunda Platform 7 powers process automation for thousands of leading companies worldwide. Built for Java, it embeds a lightning-fast BPMN 2.0 engine into any app or container, seamlessly integrating with Java EE 6 and Spring to orchestrate workflows at scale.

- Individual Contributor to the Camunda 7 Project between April 2023 and April 2025
- My contributions can be found between 7.20.0 and 7.23.0 Releases
- Feature Development for Open Source / Enterprise Edition
- Community Worker - Worked on Reviewing community contributions, security vulnerabilities, CI improvements
- Alpha and Minor Release Management
- Worked on C7 to C8 Data Migrator PoC

My Commits

Contract Intelligence & Services

Contract Intelligence and its platform services offer an IDP solution for extracting data from documents and classifying them with different algorithms (proprietary, open source).

- Lead Developer for Refactoring the Main Product of the company using a DDD inspired approach
- Redesigned & Implemented Platform Services to be configurable (turned it into microservice).
- Designed, Implemented & Tested Connectors, a flexible, scalable, fault tolerant microservices system to connect the Products to documents of various Cloud storage solutions Sharepoint, Box, Dropbox etc.)
- Played a key role in the recruitment process by conducting interviews and assisting in the selection of qualified developers.
- Mentoring & Coaching

Java Spring Boot Spring Boot Cloud Stream Postgres OCR Cucumber JUnit 5
Mockito JPA Hibernate Domain Driven Design Microservices Docker

Dryad & Medusa

Dryad is Upstream's pioneering mobile commerce platform.

- Developed & Maintained Upstream's core products in an Agile team
- Implemented feature in an event-driven architecture at scale
- Production Support

Java 8 Tomcat RabbitMQ Event-driven Programming Guava Microservices Kafka
Spring boot Swagger Hibernate PostgreSQL Elasticsearch Redis Protocol buffers
Python Docker Jenkins Flyway Spring Tests JUnit Mockito JIRA Canban board

e-PPS

Web-based collaborative system to facilitate the full lifecycle of a tendering process, for both buyers and suppliers.

- Researched & Implemented customization on top of the existing platform

Java J2EE JBOSS 5 EJB 2.0 Web Logic Hibernate Struts 1

Project

Benelux Patent Platform

The aim of the platform is to serve as a common system for the National Offices of Intellectual Property of Belgium, Luxembourg and Netherlands.

- Developed the platform's back-office from the group up (Backend + Frontend)
- Created the search criteria functionality
- Led the data migration from Lucene to Elasticsearch

Java J2EE Spring Spring MVC Spring Security JMS JUnit EasyMock PowerMock
Hibernate SQL Server 2008 Tomcat 7 Maven REST Lucene JSON XML XSLT
Apache Tiles 2 HTML 5 CSS JSP JavaScript JQuery Eclipse Git Jenkins
Sonar

Belgium

Netherland

Luxembourg

Eleura Platform

Electronic dossier collection of electronic documents and their preparation for upload into the European Parliament's ARCDoc archival system.

- Developed all the search criteria functionality which was the core business of the app
- Contributed to the development of the rest of the app
- Created a new web interface for PAMAP using XSLT and CSS

Java	J2EE	Spring	Spring	MVC	Spring	Security	JUnit	EasyMock	PowerMock		
Hibernate	Oracle	DB	Tomcat	6	Maven	JSON	XML	XSLT	Apache	Tiles	2
HTML	5	CSS	JSP	JavaScript	JQuery	Eclipse	Git	Jenkins	Sonar		

PAMAP

PAMAP Physical Activity Monitoring for Aging People is a Health Monitoring and Personal Health Record system.

- Developed mobile client that used PAMAP's infrastructure to access PAMAP's services
- Conducted Research around HL7 protocol to standardize PAMAP's communication so it can easily exchange data with other medical systems
- Created a new web interface for PAMAP using XSLT and CSS
