[psavidis.github.io/resume](https://psavidis.github.io/resume)

Software Engineer | Java Specialist | Architecture & Design | Remote Worker

## Summary

Welcome to the PDF version of my resume. For the live, coded experience, visit the link or scan the QR code 🙌

- Feel free to **Connect** with me via email or LinkedIn to explore potential business opportunities
- **Download** my resume in PDF format
- **Search** through my projects using simple keywords

Outside of work, I'm passionate about traveling, making music, reading philosophy, and swimming.

**Fun Fact:** I've got dual citizenship

## Experience

### Software Engineer @ Camunda

April 2023 – Present

Athens, Greece

Remote

### Senior Software Engineer @ Cortical.io

August 2020 – December 2022

Vienna, Austria

Hybrid

### Software Engineer @ Upstream

March 2016 – June 2020

Athens, Greece

On-site

### Software Engineer @ European Dynamics

December 2012 – December 2015

Athens, Greece

On-site

### Army Duties @ Hellenic Army

October 2011 – July 2012

Athens, Greece

On-site

## Projects

### Camunda Platform 7 - The Open Source BPMN platform

Camunda Platform 7 powers process automation for thousands of leading companies worldwide. Built for Java, it embeds a lightning-fast BPMN 2.0 engine into any app or container, seamlessly integrating with Java EE 6 and Spring to orchestrate workflows at scale.

- Individual Contributor to the Camunda 7 Project between April 2023 and April 2025
- My contributions can be found between 7.20.0 and 7.23.0 Releases
- Feature Development for Open Source / Enterprise Edition
- Community Worker - Worked on Reviewing community contributions, security vulnerabilities, CI improvements
- Alpha and Minor Release Management
- Worked on C7 to C8 Data Migrator PoC

*Tools: Java 11, Java 17, Java 21, Spring Boot, Quarkus, BPMN 2.0, Java EE 6, CDI, Arquillian, Tomcat 9, Tomcat 10, JBoss EAP 7.4, JBoss EAP 8, WildFly Application Server 23.0 / 26.0 / 33.0, IBM WebSphere Liberty 22, Oracle WebLogic, MySQL 8.0, Oracle 19c / 23ai, IBM DB2 11.5, PostgreSQL 14, PostgreSQL 15, PostgreSQL 16, PostgreSQL 17, Amazon Aurora PostgreSQL, Microsoft SQL Server 2017, Microsoft SQL Server 2019, Microsoft Azure SQL, MyBatis, H2 2.3, Docker, Jenkins, Github, Github Actions, Groovy, Javascript, Node.js, Maven, JUEL, JUnit 4, Mockito*

### Contract Intelligence & Services

Contract Intelligence and its platform services offer an IDP solution for extracting data from documents and classifying them with different algorithms (proprietary, open source).

- Lead Developer for Refactoring the Main Product of the company using a DDD inspired approach
- Redesigned & Implemented Platform Services to be configurable (turned it into microservice).
- Designed, Implemented & Tested Connectors, a flexible, scalable, fault tolerant microservices system to connect the Products to documents of various Cloud storage solutions Sharepoint, Box, Dropbox etc.)
- Played a key role in the recruitment process by conducting interviews and assisting in the selection of qualified developers.
- Mentoring & Coaching

*Tools: Java, Spring Boot, Spring Boot Cloud Stream, Postgres, OCR, Cucumber, JUnit 5, Mockito, JPA, Hibernate, Domain Driven Design, Microservices, Docker*

[Product Website](#)

## Secured

Secure-D detects and blocks even the most sophisticated types of mobile ad fraud securing mobile users and safeguarding mobile operators.

- Worked in an agile team using a scrum-like schedule, sprint based developing the platform
- Production Support

*Tools: Java 8, Tomcat, Kafka, Hive, Spring boot, Swagger, Node.js (minimal server setup for js obfuscation), Javascript, Hibernate, PostgreSQL, Cassandra, Redis, Apache Avro, Docker, Kubernetes, Jenkins, Flyway, JUnit, Mockito, Spring Tests, JIRA, Canban board*

## Dryad & Medusa

Dryad is Upstream's pioneering mobile commerce platform.

- Developed & Maintained Upstream's core products in an Agile team
- Implemented feature in an event-driven architecture at scale
- Production Support

*Tools: Java 8, Tomcat, RabbitMQ, Event-driven Programming, Guava, Microservices, Kafka, Spring boot, Swagger, Hibernate, PostgreSQL, Elasticsearch, Redis, Protocol buffers, Python, Docker, Jenkins, Flyway, Spring Tests, JUnit, Mockito, JIRA, Canban board*

## e-PPS

Web-based collaborative system to facilitate the full lifecycle of a tendering process, for both buyers and suppliers.

- Researched & Implemented customization on top of the existing platform

*Tools: Java, J2EE, JBOSS 5, EJB 2.0, Web Logic, Hibernate, Struts 1*

[Project](#)

## Benelux Patent Platform

The aim of the platform is to serve as a common system for the National Offices of Intellectual Property of Belgium, Luxembourg and Netherlands.

- Developed the platform's back-office from the group up (Backend + Frontend)
- Created the search criteria functionality
- Led the data migration from Lucene to Elasticsearch

*Tools: Java, J2EE, Spring, Spring MVC, Spring Security, JMS, JUnit, EasyMock, PowerMock, Hibernate, SQL Server 2008, Tomcat 7, Maven, REST, Lucene, JSON, XML, XSLT, Apache Tiles 2, HTML 5, CSS, JSP, JavaScript, JQuery, Eclipse, Git, Jenkins, Sonar*

[Luxembourg](#)

## Eleura Platform

Electronic dossier collection of electronic documents and their preparation for upload into the European Parliament's ARCDoc archival system.

- Developed all the search criteria functionality which was the core business of the app
- Contributed to the development of the rest of the app
- Created a new web interface for PAMAP using XSLT and CSS

*Tools: Java, J2EE, Spring, Spring MVC, Spring Security, JUnit, EasyMock, PowerMock, Hibernate, Oracle DB, Tomcat 6, Maven, JSON, XML, XSLT, Apache Tiles 2, HTML 5, CSS, JSP, JavaScript, JQuery, Eclipse, Git, Jenkins, Sonar*

## PAMAP

PAMAP Physical Activity Monitoring for Aging People is a Health Monitoring and Personal Health Record system.

- Developed mobile client that used PAMAP's infrastructure to access PAMAP's services
- Conducted Research around HL7 protocol to standardize PAMAP's communication so it can easily exchange data with other medical systems
- Created a new web interface for PAMAP using XSLT and CSS

*Tools: Java, Ant, XML, XSL, HTML, CSS, JSP, Eclipse, Android, SVN*

Project

## Education

Athens University of Economics and Business, Bachelor of Science (BSc) (2006 - 2011)
